*Cloud and Infrastructure Engineer with **2.5+ years of TechOps experience** supporting production systems, troubleshooting complex incidents, and collaborating with Cloud Engineering and Development teams. Strong hands-on experience with **AWS through projects and certifications, Terraform (IaC)**, Linux administration, and networking fundamentals. Proven ability in **incident management, RCA, monitoring, and operational stability**, with growing focus on **DevOps, cloud automation, and security-aware infrastructure design**. AWS expertise is **project-based and lab-driven**, aligned with real-world production architectures.*

SKILLS

Cloud & Infrastructure

- Amazon Web Services (AWS): VPC, EC2, ALB, IAM, S3, CloudWatch, SNS, EventBridge, WAF
- Infrastructure as Code: **Terraform (Associate Certified)**
- Networking: VPC design, subnets, routing, NAT, security groups, NACLs, DNS basics
- Operating Systems: Linux (Ubuntu, Amazon Linux) – administration & troubleshooting

DevOps & Automation

- CI/CD fundamentals (GitHub Actions – conceptual & hands-on labs)
- Version Control: Git, GitHub
- Scripting: Python (foundational), Shell Scripting (Bash)
- Monitoring & Alerting concepts

Security & Reliability

- IAM least-privilege design
- Vulnerability Management: **Nessus (hands-on)**
- Security fundamentals (ISC2 CC)
- Logging, alerting, and root cause analysis (RCA)

Databases & Web

- SQL - Relational Databases (SSMS)
- Apache Web Server
- HTTP, load balancing, health checks

Professional Skills

- Incident management & customer communication
- Cross-functional collaboration (Cloud, Dev, Security teams)
- Documentation & operational runbooks

ASSOCIATE TECHOPS ENGINEER

Trimble Inc

Chennai, TAMIL NADU

January 2023 - August 2025

- Supported production applications and infrastructure by handling incidents, alerts, and customer-reported issues.
- Performed **log analysis, troubleshooting, and root cause analysis (RCA)** to identify and resolve recurring problems.
- Worked closely with **Cloud Engineering teams** to validate fixes, test infrastructure changes, and support deployments.
- Collaborated with application development teams to reproduce issues, confirm resolutions, and improve system stability.
- Assisted in monitoring system health, tracking performance issues, and ensuring SLA adherence.
- Documented incident findings, troubleshooting steps, and operational procedures to improve response efficiency.
- Provided clear technical explanations to stakeholders and customers during high-impact incidents.

PROJECTS

AWS Serverless Website Uptime Monitoring & Alerting System

AWS | Lambda | S3 | SNS | EventBridge | IAM | Python

GitHub: <https://github.com/vignesh-svg-ctrl/Website-uptime-monitoring>

- Built a **serverless monitoring system** to check website uptime on a scheduled basis.
- Implemented health checks using **Python-based AWS Lambda functions**.
- Configured **SNS alerts** for real-time downtime notifications.
- Created a **static S3 dashboard** to display monitoring results.
- Applied **least-privilege IAM policies** and optimized costs using serverless services.

Terraform-Based Two-Tier Web Architecture on AWS

Terraform | AWS | VPC | ALB | EC2 | IAM | SSM

GitHub: <https://github.com/vignesh-svg-ctrl/Terraform-AWS-Infra>

- Built a **production-style two-tier AWS architecture using Terraform**, including VPC, public/private subnets, ALB, and EC2.
- Implemented **secure private instance access using AWS SSM** and ALB-based traffic routing.
- Configured **health checks and target groups** to ensure application availability and fault detection.
- Structured Terraform code using **modular, reusable configurations**, improving maintainability and scalability.
- Applied **cost-aware design principles**, resource sizing, and clean infrastructure documentation with architecture diagrams.

EDUCATION

MSC IN CYBER FORENSICS AND INFORMATION SECURITY CANDIDATE

University of Madras, **Chennai**

Final Semester Jan 2026

BCA IN COMPUTER APPLICATIONS

D.G. Vaishnav College, **Chennai**

GPA 8.2

Mar 2023

CERTIFICATIONS

AWS CERTIFIED SOLUTIONS ARCHITECT – ASSOCIATE

HASHICORP TERRAFORM ASSOCIATE

ISC2 CERTIFIED IN CYBERSECURITY (CC)
